

SIZE GUIDE

The Country & Twee coats are sized by length and come with either a short or long belly strap to make sure that all breeds, shapes and sizes have a great fitting coat.

First measure your dog from their collar to the base of their tail to determine Back Length and refer to the table below to see what Coat Size they fall into, all of our coats are in inches. Then take the measurement of the torso as shown on the diagram to see what Belly Strap length is required, they come in either Long or Short.

Generally the stockier breeds such as Westies and Beagles will require a long belly strap where the slimmer breeds such as Yorkies and Maltese will be most comfortable in the short belly strap.

Standard Coat Measurement Chart
