

Size Guide

How to check your size . We think the easiest way is to take your dog's most comfortable collar and measure it

- a) from the centre of buckle to the very tip
- b) from the centre of the buckle to your dogs favourite hole.

Example

Holly's collar = 20ins

Her favourite hole = 16ins

Therefore Holly's collar Size = Size 5

Or you can use a flexible tape measure. Place two fingers on your dog's neck where the collar would normally sit. Then measure round both the neck and your two fingers. This will give you a measurement for a comfortable fit.

All measurements are subject to slight variations as all collars are handmade

Holly&Lil's Slim and Wide Collar Size Guide

Standard Wide or Slim?

Almost all Holly&Lil designs are available as 'Slims' or as our signature 'Wides' which have the slim element under the chin (for the dog's comfort) and the wide part on the back of the neck with a D-ring fitting for the lead. Holly and Lily love their Wide collars as they show through their long fur and don't cause matting or breakage of the guard hairs.

The 'Standard Wide' shown here is available in Size 3 and up. Our special adaptations of the 'Wide' for tiny/small dogs and traditional Hound Collars are also shown in this section.

Size 1 Miniwide or Standard Slim?

Top: Size 1 'Miniwide' (also available in Size 1/2)

Special lightweight design and fittings for teacup/mini breeds

Bottom: Size 1 Slim collar

Full buckle and D ring - ideal for terriers etc

Size 2 Miniwide or Standard Slim?

A great option for the strong smaller dogs such as border terriers and large dachshunds

Top: Size 2 'Miniwide' . Also available as Size 3 Miniwide

Bottom: Size 2 Slim collar

Calf Leather Colour Chart - Click on Image and it will grow

Bear in mind the paler the leather the more treatment processes it has gone through to get there. So pale pink will not be as super hardy as Chocolate Brown.... but ever so pretty!

Holly&Lil's Fittings Size Guide

Holly&Lil's "standard fittings" range from the tiny, lightweight 1/2" half buckles, which we use for cats and teacup breed dogs, to the 5/8", 3/4", 1" & 1.5" (not shown) buckles for the bigger dogs. The chart below gives you a guide - take your scale from an actual 50p piece, not from the size that the buckles are shown on your screen, as computer images can vary.
